

Unibilt Valve/Cylinder Package

Improved design increases reliability and reduces maintenance

Improved Features

The one-piece body reduces the total number of parts by 50%.

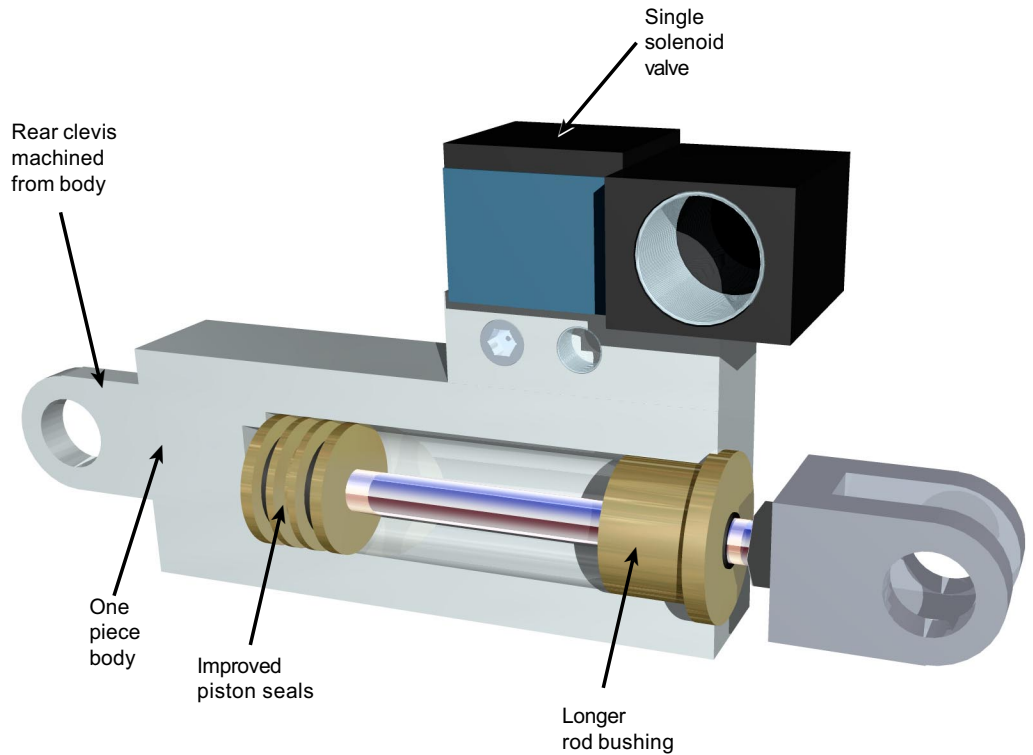

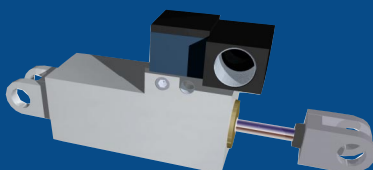

Rear clevis mount is machined from the body, eliminating the rear clevis bolts that were prone to vibrating loose.

Improved piston seals and grease reservoir extends life and provides improved synthetic oil compatibility.

50% longer rod bushing handles more side load, providing increased cylinder life.

Improved package is 100% dimensionally interchangeable with our current package.

The improved package uses the same valve as the current package

Cutaway of a Single Solenoid

OLD PART NUMBER	NEW PART NUMBER	PACKAGE DESCRIPTION
V16995WS	V27791WS	2" Stroke w/ Single Solenoid - Stop
V20173WS	V27790WS	2" Stroke w/ Double Solenoid - Switch
